Lighting

[LITING]

Lighting or illumination is the deliberate use of light to achieve practical or aesthetic effects. lighting includes the use of both artificial light sources like lamps and light fixtures, as well as natural illumination by capturing daylight... lighting can also be an intrinsic component of landscape projects.

MODO COLLECTION

Modo collection was inspired by kinds of ready-made, off the shelf parts that can be found at inexpensive lighting stores. Unlike those, however, modo collection are painstakingly engineered and custom CNC-milled from solid aluminum. The spoke-and-hub system allows for dozens of configurations, making modo collection as versatile as it is beautiful.

THE PERCH FAMILY

Made of acrylic and iron, the Perch evokes a feeling of freedom. Let the graceful bird swing and glow with joy. Just beware that it might just spread its wings and fly away...

This

sunlit bird is free to swing
when softly touched, it gently
glows and brings along the promise
of spring.

AGNES COLLECTION

Originally conceived as a candelabra, Agnes takes its inspiration from the fictional heroine of the same name, a worker in the world's oldest profession during the 1849 California Gold Rush. The modular system would allow Agnes easy setup in her makeshift "workspace." In this version, glowing glass tubes replace the candles. Articulated joints allow the glass to be arranged in a multitude of ways.

SUSPENSION

Big Bang

Class and geometric shapes, the Big Bang suspension lamp is a model that will not go unnoticed: an explosion of criss-crossing forms which create an architecture of surfaces, lights and shadows, with a strong architectural and scenic effect. Playing the starring role in any setting, in the L and XL variants, it is ideal for more significant settings as well.

Rudi Loop

by Lukas Peet

Jewelry is the inspiration for Rudi, a series of pendant lamps named after Lukas Peet's father, a jeweler. Rudi is made from bent metal tubes that hold hand formed glass housing an LED lamp. The fixtures hang from their cords, which are hand-knotted around metal tubes
